Education

Inderprastha Engineering College

Bachelor of Technology in Information Technology(SGPA of 8.07)

August 2019 - June 2023

Uttar Pradesh(Gzb), India

Experience

Amazon [Make Sure to add terms like 15 as numbers more]

Feb 2020 – June 2020

Software Development Engineer Intern

Hyderabad, India

- Created a backend + frontend internal tool to see all the statistics related to the Seller with edit functionality, this allowed us to track who made the changes and when. Adding this feature saved the manual hovering time of the SDE's over DB to find these things. On every task related to this, the SDE was saving on an average **15 minutes**.
- Wrote multiple API's for the team which returned the extracted data from DynamoDB by doing some computations on the basis of business requirement. These API's made the system more feature rich.

Projects [Clickable links and as short and crisp as possible, at max 2/3 projects]

Adography | Java Spring Boot, React Js, MySQL | Clickable Link

4

- An interface which will given an option to search on the basis of fullName of regex in Ad, AdGroup and Campaign
- The search option allows the user to see all the matching resultsttt related to Ad, AdGroup and Campaign in a paginated way. On selection of any Ad, AdGroup, Campaign, the user is able to see further details.
